## Summary

---

Motivated BCA student with hands-on experience in Java Full Stack Development using Spring Boot, React.js, and MySQL. Built full-stack web applications with REST APIs, database integration, and responsive user interfaces. Strong foundation in object-oriented programming and eager to contribute to software development teams through internships and entry-level opportunities.

## Skills

---

- Frontend: HTML, CSS, JavaScript, React.js, Bootstrap
- Backend: Java, Spring Boot, Spring Data JPA, REST API
- Database: MySQL
- Languages: Java, Python, C, JavaScript
- Tools: Git, GitHub, Postman, VS Code, Maven
- Concepts: OOP, CRUD Operations, MVC Architecture, Authentication

## Experience

---

### Full Stack Development Intern – Infyco

Nov 2025 – Dec 2025

- Contributed to the development and deployment of full-stack web applications, gaining practical exposure to real-world software development workflows.
- Collaborated on building scalable applications, improving problem-solving and debugging skills.
- Worked on integrating backend logic with databases to manage and process application data efficiently.
- Enhanced user experience by designing responsive interfaces and improving application usability.
- Gained hands-on experience in application deployment, testing, and version control using GitHub.

## Projects

---

### Employee Management System – Full Stack Web Application React.js, Java, Spring Boot, MySQL, Bootstrap

[GitHub Link](#)

- Developed a full-stack Employee Management System using React.js, Spring Boot, and MySQL to streamline employee data management.
- Implemented authentication features including user registration and login for controlled access to application resources.
- Designed and integrated RESTful APIs to enable seamless communication between the React frontend and Spring Boot backend.
- Built complete employee management functionality with Create, Read, Update, and Delete (CRUD) operations.
- Added employee search capability to quickly filter and locate records from the dashboard.
- Utilized Spring Data JPA and MySQL for efficient data persistence, retrieval, and database management.
- Created a responsive dashboard interface with Bootstrap, improving usability across different screen sizes.
- Managed project version control and collaboration workflow using Git and GitHub.

## Personal Portfolio Website HTML, CSS, Bootstrap

[Live Link](#)

- Designed and developed a responsive portfolio website to showcase projects and skills.
- Built a modern and user-friendly interface using HTML, CSS, and Bootstrap.
- Ensured mobile responsiveness and cross-browser compatibility.
- Deployed the website using GitHub Pages.

## Certifications

---

- Achieved HackerRank Problem Solving (Basic) certification (Apr 2026), Demonstrating proficiency in data structures, algorithms, and analytical problem-solving skills.
- Completed “Programming in Java” certification from IIT Kharagpur (NPTEL), gaining strong understanding of object-oriented programming concepts.
- Earned IBM certification in Customer Engagement and Communication, enhancing professional and interpersonal skills.
- Completed IBM certification in Artificial Intelligence Fundamentals, building knowledge in core AI concepts.

## Education

---

**Bishop Heber College, Trichy**  
*Bachelor of Computer Applications*

2024 – 2027

- **Relevant Coursework:** Java, Python, C, HTML, DBMS, Artificial Intelligence, Computer Networks
